Judge's comments: _____

NOTE TO JUDGES: When judging brochures, assume that a section will receive the maximum points possible. If something is just average, it should receive an average point award. When awarding points, consideration may be given to the material and information included under the category as well as the way the information is represented in layout and design. Care should be taken to award points consistently throughout the contest. No zeroes will be awarded. Lowest possible score is a 5.

Each judge should have a *minimum of one written comment on each brochure*. Feel free to write more if you feel necessary. Many SIDs use these comments to better their brochures from year to year.

Thanks for giving your time and energy to the CoSIDA Publications Committee in this endeavor.
